

Nexus Single-Stage Plugged Regulators

The Nexus Single-Stage Plugged Regulators employ a new design concept incorporating both high performance encapsulated control valves and high integrity internal bonnets. The construction is of high tensile brass for all major components.

Oxygen:

- BS EN ISO 2503
- 300 bar service
- Colour Coded P.A. knobs
- Precise control of pressure and flow
- Gaugeless design for tough conditions

Acetylene/Propane:

- BS EN ISO 2503
- Colour Coded P.A. knobs
- Precise control of pressure and flow
- 25 bar service

Part No.	Description	UOM	Gas Service	Applications
NXGE050401	Single-Stage Plugged 10 bar	Each	Oxygen	Scrap Cutting, Heavy Duty Applications
NXGE050402	Single-Stage Plugged 1.5 bar	Each	Acetylene	Scrap Cutting
NXGE050403	Single-Stage Plugged 4 bar	Each	Propane	All Heating & Cutting Applications
